Open invitation to all interested in the Multiplaz 3500

Don't Miss It!

On March 6-8, 2012, Matheson LINWELD will host an open house at its retail site in Lincoln, Nebraska as well as its Training and Automation Center in neighboring Waverly. This expo will give you the opportunity to receive professional advice on the latest welding, cutting, and clean air equipment; e-commerce and vending solutions; and specialty gases.

Hands-on demonstrations will provide you with the opportunity to interact with Multiplaz Welding Technicians and demo the machine. Limited machines are at the show. Our site in Waverly will be offering live equipment demos, free daily seminars in our classroom, and tours of Matheson LINWELD's 85,000 square foot Cylinder Distribution and Specialty Gas Center.

For your convenience, shuttle service will be available between Waverly and Lincoln. Park your car once and leave the rest up to us! Lunch will be served between 11 a.m. and 1 p.m. daily at the Lincoln and Waverly sites.

Join us in March for a great opportunity to gain expert knowledge. If you have questions, please talk with your Matheson LINWELD sales representative. We look forward to visiting with you next month!

Sincerely yours,

Matheson LINWELD

Mark C. Bell
